# WELCOME:

## Industry Progress Report

**Jon Watts**  
**CIMM**

**2022 SUMMIT**

# A YEAR OF CHANGE

- No accredited converged TV measurement providers for 2022 Upfronts
- Nielsen zero-basing measurement with Nielsen One, starting from 2023
- New providers gaining traction: 605, Comscore, iSpot, Oracle, Samba, TVSquared, VideoAmp
- Networks (and agencies) aligning with measurement partners for their own inventory ...
- ... but variations between providers can be unclear

---

**How should the industry manage the transition to a multi-currency market?**

# MULTIPLE INDUSTRY INITIATIVES UNDERWAY

- WFA technical blueprint for cross media measurement
- ANA Cross-Media Measurement Initiative
- VAB Measurement Forum
- NBCU Measurement Innovation Forum
- Ongoing development of MRC standards, guidelines and audits
- And various other initiatives: IAB Tech Lab, IAB, OpenAP's XPM

---

**How do these initiatives fit together and what will the new ecosystem deliver?**

# CIMM HAS A UNIQUE ROLE TO PLAY

- A non-partisan cross-industry alliance ...
- ... of companies from across the entire ecosystem: buy- and sell-side, large and small, new and well established, platforms and enablers, measurement, data and technology providers
- A catalyst for innovation and R&D hub for the industry
- A source of insight and impartial, objective, actionable research
- A forum for dialogue, cooperation and collaboration
- Drawing on the resources and capabilities of the ARF
